- **Supplementary Self-Directed Coursework in AWS (Amazon Web Services)**

KENYON COLLEGE: Gambier, OH
Bachelor of Science in Biochemistry

PROFESSIONAL EXPERIENCE

UNIVERSITY OF CENTRAL FLORIDA – FULL STACK WEB DEVELOPMENT PROGRAM: Orlando, FL   2022–2022
Full-Stack Development Projects

Animame: Project managed team in the design, development, and test of JavaScript-based pop culture web-based application enabling users to search database of anime shows presented via Kitsu API.

- Delivered responsive UI/UX site and features using Bootstrap. Used Tasty API, jQuery, and Bulma to extract, format, and display corresponding recipes of dishes featured in selected shows.

Elevate: Co-created prototype learning management system (LMS) in MERN Stack, Apollo GraphQL, Mongoose, Heroku, React Bootstrap, and React Router enabling educators to host embedded video lessons and to collaborate with students.

- Developed seamless user experience via integration of front-end routing using React Router DOM, and with back-end NoSQL MongoDB data framework. Enabled client user queries and responses via application of GraphQL server.

Nexus: Architected and developed video game guide and review aggregator as member of project team. Built functionality and back-end database in MySQL enabling users to create unique profiles, build lists of favorite games, and leave reviews. Produced app in Node, Express, Ajax, MySQL, Handlebars, Sequelize, and Bootstrap.

- Successfully integrated complex data sets. Pulled review data from IGN.com via REST API with Ajax and Twitch streaming connections via Twitch API. Debugged application front-end and back-end. Awarded "Best Overall Application" in class.

ORGANA BRANDS: Denver, CO   2017–2020
Quality Assurance Specialist (2019–2020)
Quality Chemist (2017–2019)

Promoted by marketer and distributor of CBD-infused products to manage quality assurance and regulatory compliance. Ensured attainment of product standards via failure mode and effects analysis (FMEA), creation of process documentation, internal audits, and product testing.

ADDITIONAL RELEVANT EXPERIENCE

FREELANCE CONTENT CREATOR: Denver, CO & Tallahassee, FL   2017–Present

Managed conceptualization and production of online videos for social media and game streaming. Edited live and recorded content, including design and integration of special effects, in Adobe Premiere Pro. Provided art direction for screencasts and streams in OBS Studio.
